EDUCATION

2021–2026
VIETNAM–KOREA UNIVERSITY OF INFORMATION AND CUMMUNICATION TECHNOLOGY

- Computer Science Department
- Software Engineering Major
- GPA: 3.52 / 4.0 (current)

SKILLS

- Back-end: Java, NodeJS
- Front-end: JavaScript, TypeScript
- Frameworks: ReactJS, Spring Boot
- Database: MySQL, SQL Server, MongoDB
- Other: Git, Docker
- Softskils: Teamwork, problem-solving

LANGUAGE

- English: Elementary
- Korean: Topik 3

ABOUT ME

I am a final-year Information Technology student at VKU, with hands-on internship experience as a Java Developer Intern at FPT Software. Passionate about backend and full-stack development, I have experience with Java, Spring Boot, ReactJS, and SQL Server. I am actively seeking opportunities to apply my skills, gain real-world experience, and continuously grow as a software developer.

EXPERIENCE

Java Intern   2025/04 – 2025/07

FPT Software ｜ Da Nang

- Participated in the development web applications using Java, Spring Boot, SQL Server, React JS.
- Collaborated with trainer to implement RESTful APIs, business logic, and handle bug fixing.
- Gained hands-on experience with MVC architecture, JPA/Hibernate, and unit testing using JUnit.
- Worked in an Agile environment using Git for task management and version control.
- Improved skills in problem-solving, clean code, and team communication in real-world projects.

GiupViecNow   2025/04 - 2025/07

Website: Search for a housekeeper

- Purpose: Course project.
- Number of members: 3
- Tech:
  - Front-end: React JS, Redux.
  - Back-end: Spring Boot, SQL Server
- My Contributions:
  - Built features for workers to register, verify info, and manage job posts.
  - Implemented JWT-based authentication and role-based access.
  - Developed admin dashboard to manage and verify worker accounts.
  - Handled both frontend and backend development.
  - Designed UI for worker/admin modules using Figma.

Quang Binh Travel   2025/01- 2024/03

Website: Booking tour

- Purpose: Course project.
- Number of members: 2
- Tech:
  - Front-end: React JS
  - Back-end: Spring Boot, SQL Server
- My Contributions:
  - Developed backend APIs using Spring Boot for tour listing, booking, and user management.
  - Designed database schema and handled data access with JPA/Hibernate.
  - Implemented authentication and role-based access for users and admins.
